1   Vizrt Licensing 3.2.0

Release Date: 2025-10-06

These are the release notes for Vizrt Licensing version 3.2.0. This document describes the user-visible changes that have been done to the software since release 3.1.3.

1.1   New Features

- The handling of the Maintenance Period was switched from *on order* to *on activation*, to decrease the number of ticket renewals, and allow the customer to manually update this service (7688).
- Added a **Bulk Edit** button for internal users on group level (7648 & 10141).
- Added a **Copy Ticket** button for internal users on ticket level (7672).
- Added the *Ticket history* area within a ticket, to see previous iterations of a ticket (9606).
- Added the *License Information* attribute to licenses which are now shown within WIBU WebAdmin on license level (6913).
- Added a loading animation whenever the License Portal pulls data from the backend.

1.2   Improvements

- Added an **Update Maintenance Period** button to further simplify the self-service ability for customers (7688).
- Improved search capabilities on Rehost when multiple containers are available (7718).
- Memory adjustment for groups with high numbers of licenses (T-173918).

1.3   Fixed Issues

- Fixed the disabled Navigation tree for internal users (7720).
- Improved data consistency for internal users within the Container section, on a customer group (7623).
- Container restore fix for early TriCaster versions (9779).

1.4   System Requirements

The following browsers are supported for online activation of licenses: Google Chrome, Mozilla Firefox and Microsoft Edge.

For a list of the supported products, see the *System Requirements* page in the Vizrt Licensing Admin Guide.
